Ideal Windows

U.K. LTD.

The perfect solution for the replacement of existing steel windows.

Available in a wide range of styles and designs including top, side and bottom hung. Designed to replicate the slim sight lines of steel windows whilst offering superior security, weather and thermal performance.

A vast array of available hardware allows the windows to be fully customised in terms of security, weather and functionality.

- Secured by Design licensed
- Kitemarked BS4873 & BS7950
- Slim sightlines to match existing steel windows
- Window energy rated A & C
- Internally beaded for ease of site glazing on high rise applications
- Integrated deep head profiles for ease of trickle ventilation
- Unique polyamide thermal break design to improve thermal performance
- Accommodates all standard hardware including friction stays and shoot bolt locking
- Complies to Part L using Low E glass 58mm or 70mm frame depth to accommodate varying types of applications
- Accommodate 28mm double glazed units
- Dual colour capacity for variations internally and externally
- Fully compatible with the entire Ideal Range

The Ideal Window range is flexible, versatile and can be specified for a range of applications including:

- New build or refurbishment projects
- Domestic and light commercial
- Residential and social housing
- Low, medium and high rise
- Conservation & Heritage Areas
- Listed & Period Buildings
